AIRGNET REQUEST FORM
(ACCIDENT/INCIDENT REPORT GENERATOR, .NET Version)

The Federal Railroad Administration's AIRGNET (Accident/Incident Report Generator, .NET version) Application is a Windows based computer program which facilitates the processing of all monthly reports, and maintenance of reports and records required under 49 CFR part 225. With AIRGNET, railroads can record and maintain their accident/incident data, and submit their FRA-required monthly reports electronically. Fully installable copies of the application are provided, free of charge, to interested railroads who regularly submit accident/incident reports to FRA.

Please read the following and complete the items below to receive a copy of AIRGNET.

- In order to install and use AIRGNET, you will need an IBM PC or compatible, and may need at least 150 to 250 MB of available hard disk space, 256 MB RAM, and have Windows 2000, NT, XP, Windows 7 or VISTA.

- AIRGNET can be set up either as a stand-alone application with database on a single personal computer; or as a multi-user system (connected to a main AIRGNET database residing on a server, and the application running from each client). AIRGNET allows users to enter, edit, and maintain required FRA reports and logs.

- AIRGNET is provided to qualified users at no cost and its use is purely voluntary on the part of the railroad. Neither FRA, nor FRA Project Office, nor ActioNet Inc., assumes any liability for hardware damage or data loss resulting from improper use of this product.

To request AIRGNET, please complete the items below and fax back to the FRA Project Office at (571) 282-6487. (For assistance, contact the FRA Project Office Help Desk: (888) 372-9393)

Requestor's Name: _____ Telephone: _____
Title: _____ Fax:_____ e-Mail:_____
Mailing Address: Railroad Name(s):

_____ _____
_____ _____
_____ _____
_____ _____

I have read the requirements and conditions above and would like to receive (check off one item):

☐ an Internet address (i.e., URL) from where to install AIRGNET
over the Internet (high speed Internet connection is required) or

☐ a complete AIRGNET Installation set on compact disk (CD)

My personal computer's (PC) Operating System is: _____

_____   _____
Signature   Date
